

Mazda MX5 ND Luggage Rack

1. Place a soft cloth on the tailgate so that no scratches can occur
2. Attach the fastening straps only slightly to the luggage carrier! DO NOT TIGHTEN. The screws should only "stick". Before that please still the included Stick 3M-Adhesive-Plates into all roundings of the fastening straps!
3. Align the luggage carrier and hook the assembly straps.
4. Now you can firmly mount the luggage carrier by tightening the screws diagonally.
5. Now try to see if the rack is fixed.

Technical data about the luggage carrier:

Max. Load: 15,00 kg

Weight: 4.5 kg
